National Standard Examination 2024

ELIGIBILITY FOR Indian National Olympiad i.e. INPhO - 2025, INChO - 2025, INBO - 2025 and INAO - 2025 will now be determined as below. Since the aim of the first stage examination is to have a wide reach. To progressively increase this reach and to attain nationwide representation for **Stage Second** without over all compromising on merit the following updates are being incorporated.

For the selection of the students for Stage II examinations i.e. INOs, the student pool of each NSE (Astronomy, Biology, Chemistry and Physics) will be divided into two groups:

- **Group A:** Students who are in Class XII as of November 30, 2024
- **Group B:** Students who are in Class XI or X as of November 30, 2024

For Stage II (INO):-

- There will be 200 students from each **group A** and **group B** of NSEP, NSEC and NSEB in all 400.
- There will be 250 students for each **group A** and **group B** of NSEA in all 500.
- There will be over all **10% girls** in each group to achieve gender balance.
- An overall number of 10% girls also implies for NSEJS too.

Prof B P Tyagi
Chief Coordinator (Examination)
